✓ Computers—both desktop and laptop

✓ Servers

✓ Computer monitors

✓ Cell phones

✓ Computer cables and wiring

✓ Desktop printers, scanners and copiers

NO TVs PLEASE!

Helpful Information....

Transporting Household Chemicals:

- When possible, keep products in original container with labels intact.
- Wrap leaking containers in newspaper and place in a plastic bag. Make sure all lids and caps are tight.
- Place items securely in boxes for transport. Use newspaper or cardboard as fillers.
- Place chemicals that will react with one another in separate parts of the vehicle.
- Do not leave material in hot unventilated area for long periods.
- Do not smoke near chemicals.

At the collection:

- Depending on the weather and volume of traffic, there may be a brief wait in line.
- A collection official will greet you and ask a few survey questions— proof of residency may be required.
- Next, you'll be directed to the work area so that your items can be unloaded. Please stay in your vehicle unless asked to step out to open your trunk.
- Lastly, you may be asked to identify your chemicals to make sure they are acceptable. If you are unsure of any of your materials, please notify the attendant who will be unloading the materials for you.

Thanks for your patience and cooperation!

Going forward:

- Purchase alternative, non-toxic products.
- Use latex paint instead of oil paint.
- Share excess products with neighbors, schools, etc.
- Keep children and pets away from chemicals.
- Do not mix or pour chemicals together.
- Never pour chemicals down storm drains or on the ground.
